## Introduction

According to *Webster's Dictionary*, a thesaurus is a dictionary of synonyms and antonyms; any dictionary, encyclopedia, or other comprehensive reference book; a storehouse, repository, or treasury. The inspiration to write a deliverance thesaurus came partly from the use of *Roget's Thesaurus* in deliverance. This is summed up best by Win Worley in his book, *Demolishing the Hosts of Hell*, on page 61:

*Roget's Thesaurus is a unique dictionary catalog of synonyms arranged in topical form. Because demons tend to "cluster" in family groupings, the thesaurus can be an amazingly helpful instrument to identify demons within a specific category. Commonly spirits in related "family" groups are under a ruler. In deliverance, the gift of discernment can zero in on a particular spirit. Often the Holy Spirit will give one the ruler's name. When this spirit is forced to manifest himself his name, located in the thesaurus, becomes a tool to uncover his supportive network of demons. This will expedite deliverance and assure a clean sweep of that particular group.*

*For example, if a spirit of selfishness was discerned and forced to manifest itself, reference to the thesaurus reveals his cohorts: Calculation, Self-Centeredness, Egotism, Introversion, Narcissist, Stinginess and Pride.*

*Demon Hit List*

*To dig even deeper, each of these names can also be looked up to secure a more complete identification of various character deficiencies and spiritual reinforcements that might be present.*

Since identifying and uncovering demons by name is so important in deliverance, the idea to write a deliverance thesaurus is well overdue. Demons congregate in "groupings," and knowing how they link up is invaluable to the deliverance worker. This thesaurus will help the worker to identify the names of different spirits, and also group spirits together that tend to "cluster" within people seeking deliverance. It will also be a handy reference book that the deliverance worker can refer to from time to time that will hopefully be a storehouse of information that will help destroy the works of the Devil.

The names listed will not only be synonyms of the most common spirits we deal with in deliverance, but also spirits that tend to group with them, and other information that will be helpful in setting a person free in a particular area. Names are important because they help us to identify the Enemy. Remember that Satan is a "ruler of darkness" (see Ephesians 6:12) and does not like to be exposed. He and his cohorts work best when they are able to operate in obscurity and darkness. When light and identification come (often through a name), their authority is broken and their work destroyed.

# Preface

## What's in a Name?

And he asked him, What is thy name? And he answered, saying,  
My name is Legion: for we are many.  
—Mark 5:9

Some argue that we don't need to know the specific names of demons. After all, what's in a name? A name is a word or phrase that designates a person. Remember that when we are dealing with demons, we are dealing with personalities, not things. Names are what we use to identify persons. If someone shouts in a crowd, "Hey YOU! Come here!" you wouldn't know which "you" the person was calling. But if someone shouts your name in a crowd, there would be an immediate response.

Therefore, names are used to identify. Each of us receives a name at birth that will identify us for the rest of our lives. You will answer to that name thousands of times throughout life.

On the other hand, to be nameless means to be obscure or undistinguished. It means to be anonymous—that is, not recognized. Demons don't want you to recognize them. They want to be anonymous. Even though they have names, they would rather you not know it.

It is helpful sometimes to know the exact names of spirits you are dealing with, to destroy any excuse the demons have to stay. Sometimes demons try to use the excuse that their exact name was not called.

### *Demon Hit List*

Mark 5:9 gives us a key revelation in dealing with the Enemy. Jesus commanded the spirit to identify itself by name. Once the Enemy identified himself, Jesus cast him out. This is the power of identification. Identifying the Enemy is a key to casting him out. The more believers can identify the Enemy by name, the more successful they will be in driving the Enemy out.

The name of Jesus is the name given above every name (Philippians 2:9). His name, therefore, gives us authority over every demon name. The names found in this thesaurus are all subject to the name of Jesus. Again, the emphasis is *name*—the name of Jesus versus the name of demons. Thank God for the name of Jesus, the name above every name.

# Another Blow to Our Defeated Foe!

**A**uthor John Eckhardt has gone yet another step further in equipping the saints to defeat the powers of darkness in his all-new *Deliverance Thesaurus: Demon Hit List*. Since identifying and uncovering demons by name is so important in deliverance, the idea to write a thesaurus is well overdue. Some argue that we don't need to know the specific names of demons. After all, what's in a name?

Names are what we use to identify. There is power in identification. Identifying the Enemy is a key to casting him out. The more believers can identify the Enemy by name, the more successful they will be in driving the Enemy out.

The names found in this thesaurus are all subject to the name of Jesus. The name of Jesus is the name given above every name! His name, therefore, gives us authority over every demon name. Thank God for the name of JESUS, THE NAME ABOVE EVERY NAME!
